---

## Summary

---

As a Mobile Developer, I specialize in creating cross-platform mobile applications for Android and iOS. My experience includes integrating applications with backend systems, optimizing performance, and collaborating with UI/UX designers to deliver engaging user experiences. I am skilled in Flutter, REST APIs, Firebase, Kotlin, leveraging these technologies to develop high-performing and intuitive applications. Currently pursuing a degree in Information Systems at Institut Teknologi dan Bisnis STIKOM Bali, I am committed to continuous learning, evidenced by certifications in Software Development and Flutter Development. I am actively seeking opportunities to contribute to innovative projects that enhance user experience and drive impactful digital solutions.

## Experience

---

### PT. Jangkar Teknologi | Bali

#### Mobile Developer | 01/2025 - Present

- Developing and Maintaining Mobile Applications for Android & iOS
- Implementing and Integrating RESTful API
- Resolving Bugs to Enhance App Performance
- Maintaining documentation related to mobile application development, including architecture, design decisions, and implementation details

Skill : Flutter, Appstore, Playstore, Firebase

### Native Production | Denpasar, Bali

#### Mobile Developer | 10/2024 - 07/2025

- Developing and Maintaining Mobile Applications for Android & iOS
- Implementing and Integrating RESTful API
- Resolving Bugs to Enhance App Performance
- Maintaining documentation related to mobile application development, including architecture, design decisions, and implementation details

Skill : Flutter, Appstore, Playstore, Firebase

### Evetech Solution | Solo

#### Mobile App Developer | 12/2023 - 11/2024

- Developing Cross-Platform Mobile Applications (Android and iOS)
- Communicating with Backend Systems
- Weekly Task Allocation
- Testing and Debugging
- Performance Optimization
- Version Control and Collaboration

Skill : Flutter, Appstore, Playstore, Firebase

### PT. Ruang Berkarya Digital | Denpasar, Bali

#### Mobile Developer | 07/2023 - 10/2023

- Developing and Maintaining Mobile Applications for Android & iOS
- Implementing and Integrating RESTful API
- Resolving Bugs to Enhance App Performance
- Contributing to the planning and estimation of development tasks, ensuring timely delivery of project milestones
- Maintaining documentation related to mobile application development, including architecture, design decisions, and implementation details

Skill : Flutter, Appstore, Playstore, Firebase

### Peduly | Surabaya, Jawa Timur

#### Mobile Application Developer | 12/2022 - 05/2023

- Developing Cross-Platform Mobile Applications (Android and iOS)
- Testing and Debugging
- Performance Optimization Optimize the performance of the mobile applications, including speed, responsiveness, and resource usage, to enhance user experience.
- Version Control and Collaboration Utilize version control systems such as Git
- Staying Updated with Mobile Technologies

Skill : Flutter, Appstore, Playstore, Firebase

## **Skills**

---

Flutter, Kotlin, Swift, Firebase, Java, Appstore, Googleplay, RestAPI

## **Education**

---

**Institute Teklonogi dan Bisnis Stikom Bali**  
**Information System | 06/2024**

**SMK TI Bali Global Denpasar**  
**Software engineering | 06/2024**

## **Certificates**

---

Bangkit Academy - Mobile Development by Google, Software Development - Lembaga Sertifikasi Profesi, Flutter Development Bootcamp with Dart
