Anak Agung Rani Prabaswari Dewi

Denpasar, Bali, Indonesia raniswr58@gmail.com +6281977526091

SUMMARY

Mobile Developer with 3+ years of experience specializing in building high-performance cross-platform applications using Flutter. Strong expertise in clean architecture, scalable system design, and performance optimization.
Proven track record of delivering multiple production-grade applications from 0 → launch, including a supply chain & network management super app, e-commerce platforms, and social media applications with real-time features and robust backend integration (REST APIs, Firebase).

EXPERIENCE

Mobile Developer - Freelance

Lux Bali **01/2026 - Present, Denpasar, Indonesia Remote**

- Led end-to-end development of a cross-platform travel application (0 → production)
- Designed and implemented a **search-driven recommendation system** for personalized travel discovery
- Architected and integrated backend services (APIs, authentication, data layer) for scalable and reliable performance
- Optimized application performance, improving speed and responsiveness for a seamless user experience
- **Key Achievements:**
- Successfully delivered a production-ready travel platform from concept to launch
- Increased user engagement through intelligent, search-based recommendation features
- Enhanced user retention by integrating real-time notifications and adaptive UI elements tailored to individual travel interests.

Mobile Developer

PT. Jangkar Teknologi **01/2025 - 01/2026, Bali**

- Development and maintenance of cross-platform mobile applications, ensuring scalability, stability, and high performance across Android and iOS.
- Drove performance optimization initiatives, improving application speed, responsiveness, and overall user experience.
- Modernized legacy applications by upgrading to newer technology stacks, enhancing maintainability and long-term scalability.
- Architected and delivered an end-to-end e-commerce mobile application from concept to production.
- Directed integration of backend services, including RESTful APIs, authentication, and data management.
- Partnered with UI/UX teams to translate design systems into high-quality, intuitive user interfaces.
- Key Achievements:
- Significantly improved application performance through optimization and system upgrades.
- Successfully delivered a production-ready e-commerce platform from 0 → launch.

Mobile Developer

Native Production **10/2024 - 07/2025, Denpasar, Bali**

- Development of cross-platform mobile applications for Android and iOS, ensuring scalability and consistent user experience.
- Architected and integrated backend systems (APIs, databases, authentication) to enable reliable and efficient data communication.
- Collaborated with UI/UX teams to deliver intuitive, high-quality interfaces aligned with product requirements.
- Drove performance optimization initiatives, improving application speed, responsiveness, and stability.
- Key Achievements:
- Delivered a high-performance social media video application with optimized media handling and smooth playback.
- Improved application performance by **~30%** through optimization techniques
- Engineered efficient background services, including notifications, alarms, and reminders, ensuring reliability and minimal resource consumption.

Mobile App Developer

Evetech Solution **12/2023 - 11/2024, Solo**

- Led end-to-end development of cross-platform mobile applications (Android & iOS), ensuring scalability and adherence to best practices.
- Architected and integrated backend services (APIs, databases, authentication) for reliable and efficient data flow.
- Partnered with UI/UX teams to deliver intuitive, high-quality user interfaces that enhance engagement.
- Drove performance optimization initiatives to improve application speed, responsiveness, and stability.
- Key Achievements:
- Built and launched applications from 0 → production with a strong focus on best practices and high performance.
- Recognized as Best Employee of the Year (2023) for technical contribution and impact.

Mobile Developer

PT. Ruang Berkarya Digital **07/2023 - 12/2023, Denpasar, Bali**

- Developed and maintained mobile applications for Android and iOS platforms, ensuring a seamless user experience.
- Implemented and integrated RESTful APIs to enhance app functionality and connectivity.
- Resolved bugs and conducted thorough testing, improving app performance and stability.

• Contributed to project planning and task estimation, facilitating timely delivery of milestones at PT. Ruang Berkarya Digital.

Mobile Application Developer

Peduly **12/2022 - 05/2023, Surabaya, Jawa Timur**

• Developing Cross-Platform Mobile Applications (Android and iOS)
• Testing and Debugging
• Performance Optimization
• Optimize the performance of the mobile applications, including speed, responsiveness, and resource usage, to enhance user experience.
• Version Control and Collaboration
• Utilize version control systems such as Git
• Staying Updated with Mobile Technologies.

Frontend Developer

CV. Balemedia **06/2020 - 11/2020, Bali**

• Developed and implemented web interfaces using CodeIgniter, focusing on responsive and user-friendly design.
• Translated UI/UX designs into functional web pages with clean and maintainable code.
• Collaborated with the team to ensure seamless integration with backend systems.

EDUCATION

Information System

Institute Teklonogi dan Bisnis Stikom Bali • 06/2025

Software engineering

SMK TI Bali Global Denpasar • 06/2021

CERTIFICATIONS

Bangkit Academy - Mobile Development by Google

Software Development

Lembaga Sertifikasi Profesi

Speaker for Android & iOS Developer Bootcamp

Rise

SKILLS

Mobile Development: Flutter (Dart), Android (Kotlin, Java), iOS (Swift)

Architecture & Patterns: Clean Architecture, MVVM, Modularization, Scalable App Design

State Management: BLOC, Provider, Riverpod

Performance Optimization: App profiling, memory optimization, rendering performance

Backend Integration: RESTful APIs, Firebase (Auth, Firestore, FCM)

CI/CD & Release: App Store & Google Play deployment, build optimization, versioning

Tools & Workflow: Git, Agile/Scrum, Debugging & Testing
